

Cài đặt IIS trong Windows 7

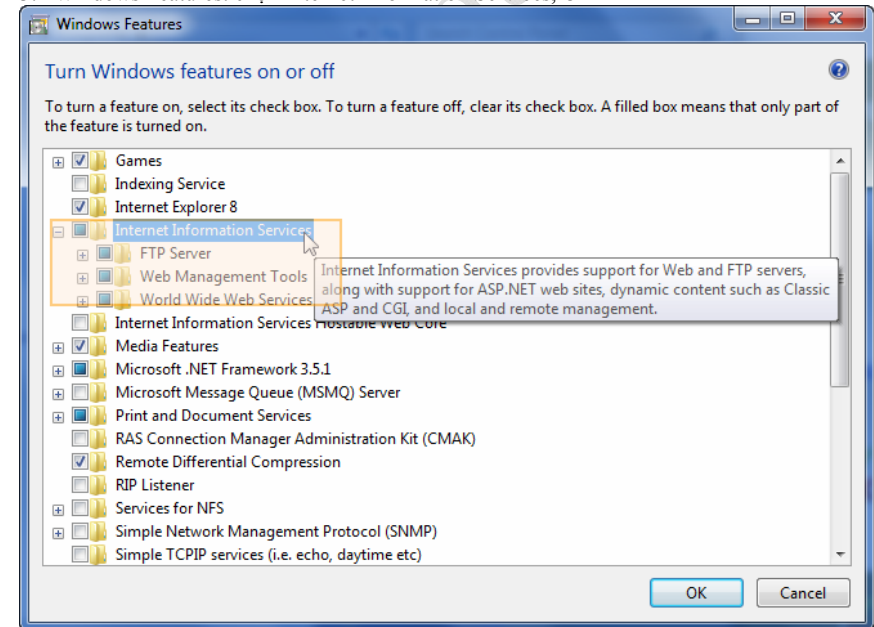

1. Start → Control Panel: chọn Programs

2. Programs → Turn Windows Features On or Off

3. Windows Features: chọn Internet Information Services, OK

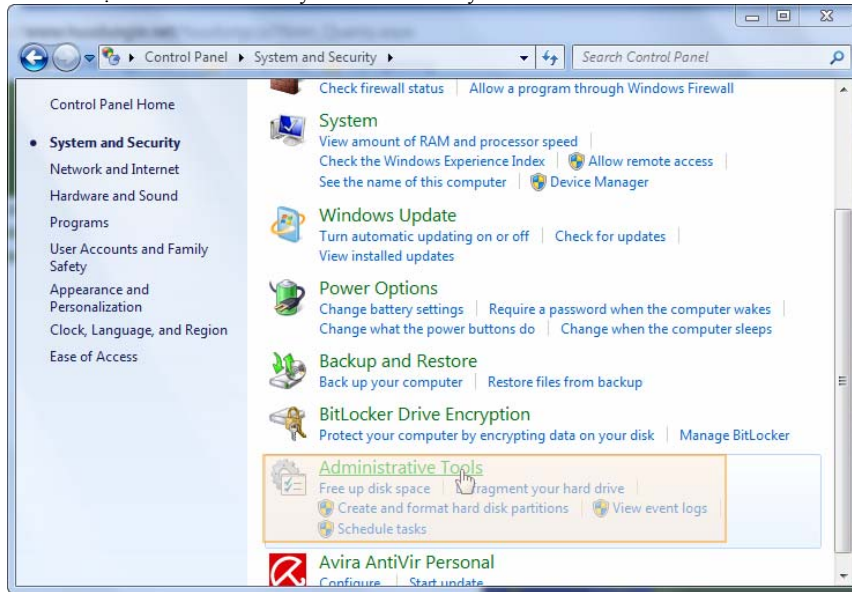

Thiết lập thư mục ảo (Virtual Directory) trong IIS

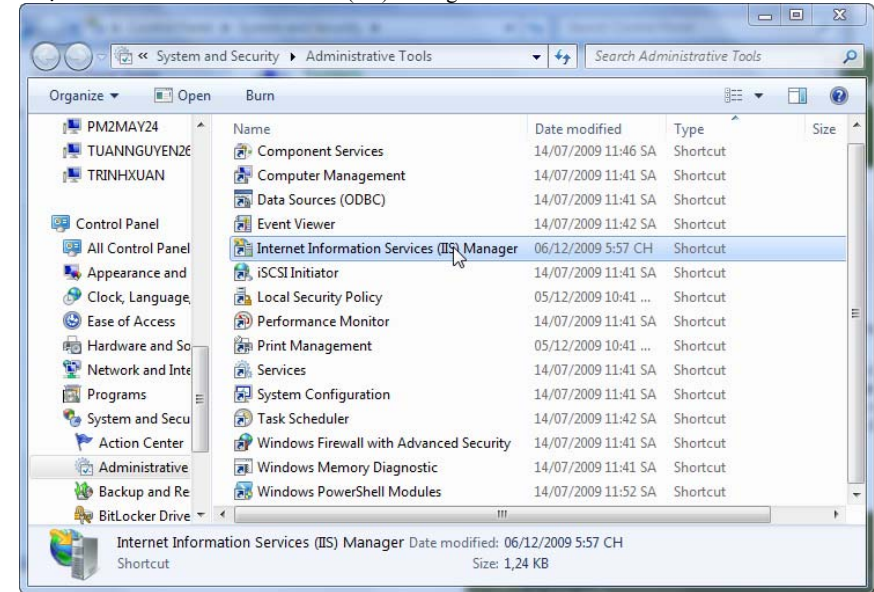

Khởi động IIS

Run: InetMgr

Hoặc Control Panel → System And Security → Administrative Tools

Chọn Internet Information Services (IIS) Manager

Trong IIS: Sites → Default Web Site → right click: Add Virtual Directory
